2 poled Super Seal

## Your partner for complete lighting systems

### ERMAX A/S

- develops, manufactures and distributes a wide range of products within the product area lighting, junction boxes and cable systems for commercial vehicles, agricultural and off-road applications.

A unique set-up with a combination of our factory in Denmark and licensed production with our own tools at a number of selected and exclusively certified partners worldwide, offers an extensive, highly competitive and qualitative range of products.

As a member of the BPW Group, which operates worldwide, Ermax offers a unique sales and distribution network with local sales and service to all our business partners.

### The brand ERMAX®

The Ermax® lighting technology has been used for the commercial vehicle industry for 70 years.

Ermax is the partner when it comes to understanding and need filling within lighting, e.g. tail light, warning light, side marker lights or work lights - nowadays in bulb, LED as well as in hybrid technologies.

These lighting components are being offered within a complete solution concept of ADR approved cables and, where required, junction boxes as well as mounting hardware. All cables sets are configured with multiple choices of connections to guarantee the optimum serviceability over the lifetime the trailer on which they will be operating.

### Why Ermax Lighting Systems?

Partnership through quality, reliability and competence.

Our competence in partnering with you, is our extensive experience in being an OEM partner with quality and on time delivery as daily focus to ensure expectations and execution match entirely with your requirements.

All our products hold the necessary certifications for E-marking, IP-protection, ADR-approval and design protections to ensure exclusive design and durability as well as non-violation of patents.

With reliable and planned processes you will reach your goal safely with us as partner.

LED Tail Light with Eternal Light™  
3 function
