

TM11 Full-LED Tail light

The light of the future

Innovative lighting system solutions

Modern Light- and LED technology

The compact and modern 7-function tail light from ERMAX

As highlights the full-LED tail light from Ermax offers a thin design, modern dynamic indicator light, impact-resistant lens and integration of all legal control units.

The intelligent and up to date control unit of the Ermax TM11 makes the universal connection of the tail light to any truck wanted possible – without failure warnings. This is also valid for the indicator failure control – and the brake light control.

The indicator light function in the side markers, lights simultaneously with the tail light according to ECE 48. This function is fully integrated in the TM11 tail light.

Superior durability, modern functionality and a modern design, come together in the Ermax TM11 tail light and making it a real highlight.

Ermax is your reliable partner
for high quality lighting systems

TM11 Full-LED Tail light

The light for standard vehicles

Highlights

- Unbreakable - Impact-resistant lens made of polycarbonate
- Multi voltage 12/24V
- Modern dynamic indicator light
- Built-in indicator failure control according to ECE 48 - compatible with all makes and year of EU Trucks*
- Built-in stop failure control according to ECE 48 - compatible with all makes and year of EU Trucks*
- Built-in control unit for flashing side marker lights (SIMAC®) according to ECE 48 supp. 06 (since november 2017)
- Certified according to all relevant standards and regulations in Europe

* September 10/2018

TECHNICAL FEATURES:

- Multi voltage 12V/24V
- Polycarbonate lens
- 7 pole AMP 1.5 connection
- Bolt hole distance: 152 mm / M8
- Approvals: ECE, EMC, ADR
- IP69K rating

Measure (LxDxH): 2400 x 120 x 250 mm / Length incl. outer en marker light is 2780 mm.

With the TM11 tail light the Ermax rear bumper has a real allrounder on board: further to the standard functions the TM11 also has an optional LED indicator failure control and LED stop light failure control as well as a flash function for the side marker lights (SIMAC) integrated in the light housing – mounting will never be easier!

Configuration with full-LED tail lights & SIMAC:

- 1 pcs 098 216 550 Full-LED tail light, right
- 1 pcs 098 216 551 LED tail light, left
- 2 pcs 098 254 335 LED license plate lights
- 1 pcs 098 241 449 LED outer end marker light, left
- 1 pcs 098 241 448 LED outer end marker light, right
- 2 pcs 098 296 710 Protection cover for tail light

Configuration with full-LED tail lights, SIMAC & LED failure control:

- 1 pcs 098 216 552 Full-LED tail light, right
- 1 pcs 098 216 553 LED tail light, left (Indicator failure control) or
- 1 pcs 098 216 555 LED tail light, left (Indicator- & Stop light failure control)
- 2 pcs 098 254 335 LED license plate lights
- 1 pcs 098 241 449 LED outer end marker light, left
- 1 pcs 098 241 448 LED outer end marker light, right
- 2 pcs 098 296 710 Protection cover for tail light

Complement to a strong family

The brand ERMAX®

Ermax® is the exclusive brand for high quality lighting systems and complete cable systems for the commercial vehicle industry. With over 70 years of experience and intensive research and development, Ermax® is one of the established OEM manufacturers of lighting technology. The Ermax® product range is available for both the OEM and spare parts trade.

Below is a selection of our Ermax-family when talking about lighting.
